

DIGITAL Specials display

Capture your target market with Digital Media.

Visioncast Media Group introduces the Digital Special Display Network. Our displays are designed to take place of traditional restaurant and pub chalkboards that are for the most part, dull and hard to read. Visioncast's cutting edge displays serve as an advertising medium for you to dynamically market your brand and its offerings. This dynamic, visual medium delivers high impact media content, with unprecedented results and value.

We combine your media ad with Whistler's most popular restaurants and pubs daily food and drink specials. The result. We capture over 86% of viewers at these locations. This capture rate is higher than any other advertising medium; print, newspaper, radio and TV.

Our design team will work with you to create a unique, high impact media spot to effectively showcase your business. The Visioncast Media Network will reach over 3,000,000 viewers of YOUR target market, this season alone.

Update your own Ads*, Anytime from Anywhere, as often as you like!

Visioncast's Media Manager gives you the power to update your media content from any internet connection...even a mobile.

Have a last minute special or event to promote? No problem. Simply login and update your ad to be broadcast on the Visioncast Media Network.....instantly!

Unlike any other advertising medium, Visioncast puts you in control. Say goodbye to time consuming and costly updates to your marketing strategies.
